# RESUMPTION OF HOSTILITIES NOW A GRAVE EVENTUALITY

Terms Imposed On Germany For Armistice Extension Will Be Severe

Cessation Of Hostilities Against The Poles Will Be Demanded

**GERMANY GIVEN ONLY BRIEF PERIOD**

Huns Must Be Made to Obey Terms of Armistice Even if America is Required to Again Take Up Arms

**PARIS, FEBRUARY 13—(Associated Press)**—President Wilson, according to the report, is understood to have declared in conversation that a resumption of hostilities was a grave eventuality to which he would agree only on the most essential considerations, and not for any secondary motive. The reports state that in Mr. Wilson's opinion the non-execution of the terms by Germany would be an incident of such a nature as to justify the resumption of war and it is stated that he would not hesitate in that case to order the American army to take up arms again.

The supreme war council has decided, says a Havas report, that the armistice with Germany will be renewed on February 17th for a very brief period with the allies reserving the right to suspend at any time in event of Germany's failure to carry out new clauses or those which have hitherto not been executed. It is said the terms will provide that the Germans must cease hostilities against the Poles and maintain their forces within fixed limits.

During the brief period of the renewed armistice a special commission will definitely draft the conditions of an armistice which will last until the signature of the peace preliminaries.

These conditions, which the supreme war council is reported to have approved yesterday, have in view the demobilization of the German army and disarmament of the enemy under the supervision of the allies.

## MORE RUSSIAN FACTIONS AGREE TO CONFERENCE

(By Associated Press)

Paris, February 12.—The Lettish and Estonian governments have accepted the invitation of the supreme council of the peace conference to attend the conference at the Princess Islands.

The Lettish government in accepting the invitation states that as a proviso to its acceptance the Bolshevik government of Russia must withdraw its forces and cease all offensive military measures.

The Estonian government in its acceptance says that it does not consider it is a part of the Russian Soviet republic but will participate because it feels the conference will be of importance to the future of Estonia and its relations with Russia.

In this reply he says he accepts the suggestion that after his return to Paris a great public meeting be arranged in celebration of the conclusion of the work of the peace conference. ## DESCRIBED AS FAIRLY ABLE MEN

(By Associated Press)

Washington, February 13.—Members of the Bolshevik central cabinet in Russia were described today by Prof. Ralph Dennis, of Northwestern University, testifying at the Senate committee into lawless agitation in this country as "fairly able men who truly believed theirs was the best way to bring about heaven on earth."

Mr. Dennis was a Y. M. C. A. worker and Consular Agent in Russia from 1917 until last September, and he said there was no real friendship between the Germans and the Bolsheviks.

Each group, however, was trying to use the other, he said.

## CONFERENCE PASSES SAFELY LABOR OBSTACLE

Article Four of British Draft Accepted Fixing Status of Labor

(By Associated Press)

Paris, February 13.—The agreement by the committee on international labor legislation yesterday to accept article four of the British draft of measures to settle the future status of international labor marks the passing over safely of an obstacle which the labor leaders expected would provoke a bitter contest for the reason that it is the most radical of the projects organized labor is seeking to draft upon the constitution of the society of nations.

This article provides that at the proposed international conference the representatives of governments, the employers and working people shall speak and vote independently without regard to the views expressed by other representatives of their nations and to have power to draw up a convention binding on the nations represented.

## BULGARS USED UNJUST METHOD AMONG SERBIANS

Exacted Heavy Tribute From Leading Serbs to Prevent Deportation

Nish, Serbia, January 2.—(Correspondence of the Associated Press).—Bulgaria during its occupation of Serbia, found the country not only an abundant source of food and material but also of considerable revenue. Bulgarian officers exacted large sums of money from the civilian population for what they considered special privileges. For immunity from deportation, for example, some Serbs were forced to pay the Bulgars as high as 25,000 francs. Other Serbian civilians paid large sums that their daughters might not be molested, say the Serbians.

Seven thousand francs was the price paid by Nake T. Pasitel, wheat merchant in the town of Bel Palanka near here, to prevent the seizure by Bulgarian soldiers of his daughter, twenty years old. Pasitel's son, seventeen years old, Pasitel's son, seven years old, died of starvation in an internment camp.

Peter Goshitch, a banker of the same town, paid six hundred francs for the release of his daughter who had been taken from her home by Bulgars and held at Nish five days. This young woman's husband, who was a priest, was killed by Bulgars a short time before. It is charged.

From five hundred to twenty thousand francs was the tax put upon Serbians who desired freedom to move about, and from this source the Bulgars reaped a rich harvest.

In almost every one of the dozen towns visited by The Associated Press correspondent the same story was told. In the town of Piro, Ivan Starketiel a rug dealer, gave twenty thousand francs to the Bulgars for permission to carry on his business, but persons not able to purchase immunity from persecution were punished.

In many places the Serbian people were forbidden to speak the Serbian language or sing Serbian songs. In Piro part of the old Serbian prefecture building was used as a prison for civilians who revolted at the Bulgars' treatment. In a room visited by the correspondent, the floor was splattered with blood. Local inhabitants testified that Bulgars had slaughtered many Serbian civilians.

## GREENFIELD HERE FRIDAY NIGHT

The High School Basketball team will play at home Friday evening at the High School gym. Greenfield, Washington's old time rival, will be the opponent. If the dope is correct this promises to be one of the best games of the season.

Greenfield defeated the local boys some time ago but the game was very close and the McClain athletes will no doubt run up against the stiffest opposition they have had this year.

This will be the last encounter before Washington goes to the tournament which begins February 21 at 2 o'clock and will continue until Saturday night.

## SOLDIERS SELL ARMY HORSES

Munich, January 30.—(By Associated Press Correspondent).—The returning and demobilizing armies here in great part, come quietly home, put down their arms and disband without trouble. A small percentage of the unruly element, such as compose the Liebknecht-Spartacus anarchistic group, however, has made as much trouble as possible, and has shown special fondness for crooked horse deals.

The Peasants' Council of Munich makes public a report to show that hundreds of returning soldiers have been permitted to keep a horse as a souvenir. The permission naturally does not come from the military authorities but from underlings, and the soldiers have them put the animals thus secured on the market at ridiculous prices.

One regiment that should have had 800 horses returned with but 80, the rest having been sold, in many cases it is feared, for slaughter—an easy way of concealing all traces. The city authorities recently confiscated 97 animals that had been sold in this underhand way for slaughter. The Peasants' Council has organized a guard of 40 men to help put down the evil.

## LARGE AUDIENCE GREAT INTEREST

Wednesday night at Grace Church brought forth another large audience and the words of Dr. Mahood were as usual, given close attention and made a marked impression upon all who heard him.

T o date a number of converts have been added to the church, and prospects are good for increased interest and increased numbers of converts.

During his sermon Wednesday night Dr. Mahood said:

"The free gift of God is eternal life through Jesus Christ our Lord."

"The edenic paradise was fellowship and peace with God. Sin destroyed that paradise. Jesus Christ came to restore it. But we cannot buy our way back into paradise. God does not have any barter or trade transactions with us. He does not sell his mercy. Neither moral living nor works of charity, nor humanitarian effort can earn for us an inch of God's mercy. It is a free gift."

"This gift was purchased for us with the death of the Son of God. But men do not appreciate this gift. Indeed too often the best things in life are least appreciated. Men live in the midst of God's handiwork and see nothing of His glory. Men enjoy the blessings of health and physical existence and do not stop to thank the Giver of these priceless gifts."

"And God's greatest gift, salvation through Christ, is not appreciated, because sin belittles everything that God does and benumbs moral sensibility. Some day men will see the infinite value of this gift when it is too late and mercy is done."

## An Awakening

Roy Van Tress and fifteen of his associates in the McAlester (Oklahoma) Real Estate Exchange were found guilty, on Wednesday morning, by a jury in the United States court of Cincinnati of having used the mails to defraud.

The principal defendant, Van Tress, is an Ohio product. Only a few years ago he graduated from the Wilmington college, later becoming a waiter in a Cincinnati restaurant.

Subsequently he went to the great southwest—Oklahoma. He was a dreamer. He dreamed, during all his waking hours, as he looked across the vast stretches of unoccupied land of southeastern Oklahoma, of a great inland empire which would arise some day from the vast plains and forests, the hills and valleys, that stretched away until sky line and earth blended in the blue hazes of the distance. He dreamed of oil and mineral wealth below the virgin surface and he dreamed of the busy thousands who would come and build that empire.

He dreamed this so often and so realistic did his dreams become that the mirage arose in all its glory, distinct to his disordered vision. His dream became a reality—riches were to be his for the taking. He told his dreams to others and told them so often that he believed them himself. Soon he reached out for the wealth that fancy spread before him. So real had it all become, so rapidly had probability followed possibility that it became fact.

He made others—thousands of other people—see the vision as he saw it—as fact—and he prospered on the money received from others whom he made to see his dream—as a reality.

There were two facts prominent in the career of Van Tress which contributed to shatter his own dream and the dreams of others. He did not, in his statements, differentiate between probability and fact, between dreams and stern reality and he used the mails as a medium to carry his dreams to others.

In the eyes of the law Van Tress is a criminal. To the outsiders he seems more of an irresponsible who has had a rude awakening from a glorious dream.

Van Tress is not the only dreamer who has gotten himself and others into trouble.

Some day that great land of rugged hills and barren plateaus from which arose the mirage, before the eyes of Van Tress, will support a great "empire" but it seems destined to remain a mirage for a long time to come.

In exchanging his views of the future for the hard earned money of other people, he has brought the shadow of prison bars across his vision.

## Mother's Circle Answers Appeal

The teas and bazaar to be given by the Mother's Circle Friday and Saturday afternoons of this week mark the first attempt for some time to raise a fund for local charity work aside from that done for soldiers' families through Red Cross channels, and deserves the liberal patronage of the public.

The effort is not being made to create a general purpose fund for relief work, but for specific cases, to be used especially for mothers and babies now in destitute need.

The Mother's Circle responded to the cry from far off Belgium and at their first teas a year or two ago, raised over \$200 for the relief of Belgian babies. These women are now confident that the returns for the relief of Washington's own babies will be taken care of with equal promptness and eagerness.

The Mother's Circle was formed as a club for the exchange of helpful ideas in connection with the rearing of their own children and whatever might be of mutual benefit in the duty dearest to their hearts. No idea of taking up this line of welfare work entered into the organization. But the name "Mother's Circle" was a magnet to draw the appeal of the suffering and destitute and there are no women in that purposeful little band who can turn a deaf ear to the plea of a destitute mother or the cry of her helpless babe. These calls have been many and urgent, and that is the reason these women are sacrificing other interests and putting in days of faithful work preparing for the social affairs of Friday and Saturday afternoons, which are to prove the dragnet to catch the gold pieces for this relief work.

The public is already showing its sympathy and generous donations toward those things needed for the success of the teas have poured in until it looks as if the entire proceeds, without expense reduction, would be available for this splendid local charity work.

If people patronize the teas as they have responded with donations their financial success is assured.

## POEM FOR TODAY

### THE ONE WHO SMILES

The smiler is not making any mistakes as he whistles and sings along.

With a heart that is full of the sunlit hope and rich with the spirit of song.

Not making mistakes as takes up his task and boldly and bravely through

The shadow and care holds his way with an air that's as bright as the skies are blue.

The smiler is sort of a symptom that shows there's a path for us all in the bloom.

And we needn't be worried or flattered or flurried by the dread that we have of the gloom.

Not making mistakes if we follow his style and go with a smile on our way.

Through the winter still dreaming of loveliness gleaming on the rose-red cheeks of the May.

The smiler is surer for smiling along and the light of his smile is a beam

That turns all the darkness and shadows and gray to the glory that dwells in a dream.

Not making mistakes if he smiles as he goes, but in ever dear effort and trial

Getting luck and good life and the sweet fruits of strife from the spirit and sun of his smiles.

## ARMENIA WANTS RECOGNITION OF INDEPENDENCE

**Stirring Days Surround Formal Declaration of Her Independence**

London, January 12.—Correspondence of The Associated Press.—Armenia's Fourth of July is January 31. On that day a year ago her independence was proclaimed.

It was a critical and anxious moment when Armenia took her memorable step, General Arsene Torcom, leader of the Armenian military mission now here told a representative of The Associated Press. Harassed on all sides by Turks, Kurds and other hostile tribesmen, with Turkish troops preparing a big offensive in which the Tartars and Georgians were making ready to participate, with all communications cut and no help expected, Armenia's plight seemed hopeless. But with unshaken confidence in the power of the Allies to triumph in the end, representatives of the population gathered at the ancient city of Garine, better known as Erzerum, and solemnly proclaimed the independence of Armenia, comprising Great Armenia, Little Armenia and Cilicia, and formally put the country under the protection of England, the United States, France and Italy.

Shortly before noon a procession formed and marched to military headquarters where it was received by General—then Colonel—Torcom, chief of the Erzerum garrison. The procession was composed of citizens, provincial delegates member of the Armenian Council of Defense, clergymen, educators, representatives of various Armenian committees, delegates from the Mussulman population, a Russian army commander, Lieutenant General Odechelidze, his staff and the staff and line officers of the Armenian forces.

The tri-colored Armenian flag, made and presented by orphans of the town of Vaspouragan, was hoisted, and while the crowd was cheering a salute of 101 guns was fired from the citadel.

Colonel Torcom, seated on a horse in the middle of a square formed by the Armenian soldiers, gave the command, "Present Arms." Then, saluting the flag with his sabre, he read the Act of Independence.

The proclamation sketched the early history of Armenia, recounting the country's struggles and sufferings at the hands of the Turks and declared: "Armenia has been waiting during 550 years, suffering and bathed in blood, for the hour of its final deliverance. Today that hour has at last struck."

General Torcom plans to visit each of the principal Allied nations and to go to the United States in the

spring. To the correspondent he said:

"It is, I hope, only a question of weeks, perhaps of days, before the independence of our country is recognized by the Allied powers."

## PRODUCTION OF PASSENGER CARS AND MOTOR TRUCKS

A survey of the automobile industry made by C. C. Hanch, Chief of the Automotive Products section of the War Industries Board shows that total passenger car production in the United States in 1917 was 1,749,792 cars, while production in 1918 totaled 926,388 cars. There were in manufacturers' hands on December 31, 1918, 15,545 finished passenger automobiles.

The total motor truck production was as follows: For civilian use (1917) 109,865, (1918) 164,264; for military use (1917) 18,292, (1918) 62,986; total (1917) 128,157, (1918) 227,250.

The proposed production for 1919 is 327,939 trucks, distributed as follows: 1-2 ton 9,300; 2-4 ton 30,943; 1 ton 138,738; 1-1 1/2 ton 43,308; 2 tons 49,947; 2-1 1/2 tons 10,963; 3 tons 6,155; 3-1 1/2 tons 19,212; 4 tons 1,149; 5 tons 16,992; 5-1 1/2 tons 1,000; 6 tons 1,069; 7-1 1/2 tons 954.

The following summary shows the number motor vehicles held by the Government on January 1, 1919.

Total trucks ordered 294,760; total delivered 98,000; total cancelled 79,081; balance due 28,679; shipped overseas 64,343.

Total passenger cars ordered 38,472; total delivered 18,898; total cancelled 49,649; balance due 15,990; shipped overseas 7,904.

In December the Post Office Department made requisitions on the War Department for 17,135 motor trucks, mostly from 3-4 ton to 2 ton sizes, for use in carrying mail. Members of the Automotive Products section of the War Industries Board are of the opinion that none of the motor vehicles now overseas will be returned to this country and that few, if any, of the cars and trucks in the hands of the War Department in this country will be offered for sale to the public.

## News of Interest to Women

February, the month of patriotic holidays is especially interesting this year, and already plans are brewing for various sorts of Lincoln's birthday revels, where Lincoln's birthday is a holiday, and the country over there are to be gala celebrations of the birthday of the Father of His Country. There will, of course, be private entertainments on these days, but chiefly there will be various sorts of "victory" balls, dances and other entertainments given for the benefit of some one of the various good causes that demand our aid just as much now as when the war was in full swing.

The problem of decorating for these patriotic holidays is really quite a lot simpler now than it used to be, because the patriotism occasioned by the war has brought into being the most interesting sort of red-white and blue paper decorations that can be imagined. But remember that in using the patriotic colors you can go as far as you like so far as the colors are concerned, but when you come to using a reproduction of the flag or the flag itself you must be sure to abide by the convention that specifies that we must not fold or drape the flag in such a way as to hide any of the stars in way as to hide any of the stars or stripes, and that we must not hang it so that it touches the floor or so that anything rests upon it.

Because of the risk we run in using the flag in ways that we should not, it is a good plan to make use of the shield, and this can be made from red-white-and-blue crepe paper or it can be bought already made in decorating a hall or large room it is attractive to have shields of this sort arranged at intervals of every six or seven feet around the walls of the room with red, white and blue streamers looped up and fastened under each shield.

Then, while not in the calendar of patriotic holidays and not arousing the same national spirit as Lincoln and Washington's birthday, St. Valentine's day is the one of all February holidays dear to the small folk and even older people join in the happy custom of exchanging Valentine greetings.

The old time comic valentine is almost obsolete, flowers, candy and pretty St. Valentine conceits superceding these at one time popular and often unkind and vulgar sheets. The parties of the St. Valentine season are especially pretty, with their decorations of hearts and flowers.

Mrs. Harold Breakfield gave pleasurable entertainment to the

timation of the citizens of Fayette county and will devote a great deal of time and thought to the manifold duties carried by the position he holds—leaders of the farmers of the county.

## COLONIES WILL NEVER BE GIVEN BACK TO HUNS

Definite Announcement Is Made by Lloyd George That Action Was Unanimous

London, February 13.—(By Associated Press)—Premier Lloyd George announced in the House of Commons late today that it has been decided unanimously that her colonies must not be restored to Germany.

Complete agreement also has been reached among the Powers on the demands regarding the western boundary of Germany.

Replying to a question from Colonel Guinness, the Premier declared the Government not only favored reparation for the war damages, but stood by its election pledge to make Germany pay to the full extent of her resources.

Reparation, Mr. Lloyd George said, must include indemnity.

Regarding the German eastern frontier, he said, the return of the investigating commission must be awaited before a decision can be reached.

"Germany has forfeited her claim to the colonies by her treatment of the natives," the Premier said, regarding the colonial subject.

"If Britain insisted upon having the German colonies," continued the Premier, "I am afraid we would arouse considerable suspicion. Our position will not be weaker, but stronger, if the German colonies are placed under a mandatory of the combined wisdom of all nations fighting the battle of liberty."

The British Government, the Prime Minister declared, has "no idea of recognizing the Bolsheviks as long as they pursue their present methods."

He added: "The allies must do their best to restore that distracted country."

## MURDEROUS PAIR LET OFF EASY

Eugene Crawley, 23, and Clifford Lewis, 24, soldiers who last summer murderously assaulted John Page, a Greenfield man, and after slaying his throat and leaving him for dead along the roadside near Austin, drove away with his automobile, have been found guilty of assault and battery after trial in the Ross county Common Pleas court.

Page declared on the witness stand that he had been employed by the soldiers in Greenfield to take them to Camp Sherman, and that when near Austin the men grabbed him and choked him. Then they dragged him out of the machine and beat him brutally, robbing him of \$33 and threw him over a wire fence into a field.

After a short time and while he was partly conscious one of the soldiers returned and with the exclamation that "dead men tell no tales" grabbed him by the head and cut his throat.

After several hours, weak from loss of blood and dazed from the beating that had been administered, he reached a farm house and summoned assistance.

The two soldiers admitted that they had been drinking, but disclaimed all knowledge of the affair, other than admitting that they had been with Page.

## TO CONFISCATE ALL BIG FLAGS

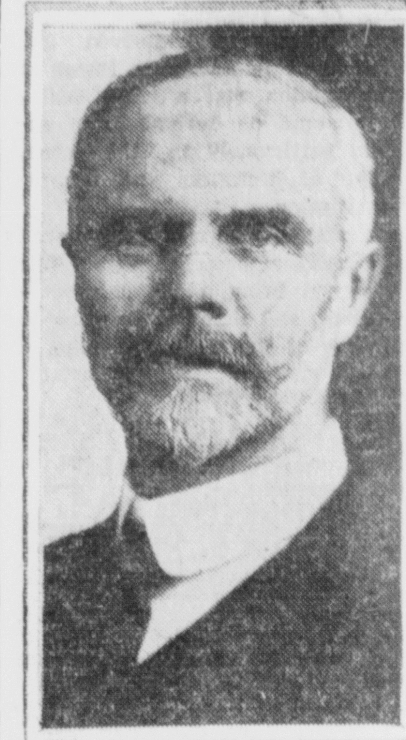

Munich, January 30.—(By Associated Press Correspondent)—Bavaria is so short of material for children's clothing that the government has issued an order confiscating all flags measuring more than 20 by 20 inches so as to use the material in them for the manufacture of children's underwear. A call has been issued to the public to donate unnecessary flags for the same purpose. It is presumed that the colors will be extracted from the flags before they are manufactured into clothing.

COLONEL W. B. PARSONS

Colonel William B. Parsons, commander of the famous Eleventh Engineers, who is now in France, has been selected by Governor Smith to head the Subway Construction Commission for New York City, according to a report from Albany. Colonel Parsons personally planned and supervised the construction of the four-track railway system which carried American troops and supplies from the seaboard in France to the battle front.

## MORE REBUILDING OF LEADING ROAD DELAYS RECALLED

Announcement is made by the State Highway Department that on February 25th, contracts will be let for 45.5 miles of highway rebuilding, of which 2.60 miles is in Fayette county.

The road to be rebuilt in Fayette county is that part of the Jeffersonville pike extending from the northern end of the present improvement to the State road, and when this is completed the road will be in first class condition to within three-quarters of a mile of Jeffersonville. It is expected the improvement will be done this spring.

Persons who ordinarily use the Jeffersonville pike, and who have been greatly inconvenienced by what they feel have been unreasonable delays in making the improvements, will watch the progress of the new improvement and will insist that it be accomplished in reasonable time.

For four or five years the Jeffersonville pike has been more or less impassable or closed to traffic because of delay in rebuilding operations, and twice has the State Highway Department been compelled to take contractors away from irresponsible contractors and make other arrangements for the work. This was the case in the last contract let, when one Fred Walls, started the contract and did not finish it.

Citizens interested in speedy improvement of the thoroughfare hope that this time the State Highway Department will let the contract to responsible parties and that the improvement will proceed in a business like manner.

## ATHENS NORMAL DURING THE STRIFE IN THE BALKANS

Grecian Cities Little Affected by War, Do Rush Business Until Near War's End

Athens, Greece, February 2.—(Correspondence of The Associated Press)—Few large cities of the country that were engaged in the war have been less affected by it than the ancient capital of Greece. Free entirely from the menace of air raids and hostile bombardment, and participating actively in the war for comparatively only a short time, Athens is today in all essential features exactly as it was in pre-war days.

There is scarcely any outward sign that the country ever was in the great world conflict. During the progress of the war, all the stores, theatres, cafes, museums and places of amusement in the Greek metropolis were doing business as usual and the inhabitants felt only remotely the effects of the war. Prices of food and clothing were much higher than in peace times but the people suffered from no such scarcity of these and other necessities of life as did the populations of London, Paris and other continental cities.

The tourist, who at one time was one of the most abundant sources of revenue, however, disappeared entirely during the war.

The passing years appear on the whole to have made little change in the Athenian capital. If the visitor who knew Athens well in days long ago could pay another pilgrimage to the historic city, he would see still the same quaint sights that have always made Athens appear to the foreigner rustic and unsophisticated, in the midst of all its cosmopolitanism. He would see a number of milch goats roaming down one of the main streets, picking up orange peel and paper bags in the gutter, while their owners drew the sweet warm milk from them to fill the bottles and pitchers of the busy Greek housewives who emerged from their homes in response to the ringing of the goat's bells and the hawking cry of the fustanella-clad herdsmen. He would see also the countless little Greek gamins, dirty and ragged, that are so much a part of the life of the capital and who shine shoes and sell lottery tickets.

Another familiar sight would be the old women, thin, tanned and bent with years, with black handkerchiefs tied under their chins, and carrying on their backs dilapidated hampers of wild herbs and salad leaves, which they dispose of to the ambitious Greek householders of the neighborhood for about 25 lepta (5 cents) a quart. Greek funeral processions, in which the body of the deceased is carried in an open hearse, fully exposed and without coffin or covering, are familiar sights.

# FORMATION OF AN AUTO CLUB PLANNED HERE

Club With Membership Of 500 to 1500 Could Be Organized, Is Belief of Many.

## Some of the Benefits To Be Derived Are Pointed Out.

Agitation for the organization of an Automobile Club in this city and county is in progress, and those in touch with the good derived from similar clubs in adjoining towns are of the opinion that a great deal of benefit would be derived from such a club, particularly in the proper marking of highways and improvement of same.

One instance is cited where there is urgent need of such an organization in order to bring about prompt improvement, and that is regarding the rebuilding of the Columbus pike. It

# THINK OF THE MONEY YOU CAN SAVE ON SHOES

Clarence J. Bloemer of St. Louis, Missouri, writes, "I have a pair of shoes with Neolin Soles and have used them for two years. I think they will last another six months."

Mr. Bloemer also recommends Neolin Soles for their comfort and waterproofness.

It is a remarkable fact that Neolin Soles cost no more than others that give only ordinary wear. You can get them on new shoes in many styles for men, women, and children—and they are available everywhere for resoling, too.

And look at the money you save—because you need fewer pairs of shoes with Neolin Soles. Remember—these soles are made by Science to be especially tough and durable. They are manufactured by The Goodyear Tire & Rubber Co. of Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

# LANE'S COLD & GRIP TABLETS GUARANTEED

is pointed out that a strong organization such as could easily be brought together in Fayette county could bring proper pressure to bear upon the State Highway Commission to insure some action.

Numerous other incidents are cited in which such a club would be of inestimable value to owners of automobiles generally. These include:

Far greater protection against automobile thieves.

Guarantee that the county's highways would not be closed for an unwarranted length of time while undergoing improvement.

Proper attention to highways needing improvement, including more modern methods of road improvement than the primal plan of merely dumping material upon the roads and depending upon vehicles to do the rolling down.

Closer relation between city and county.

Promotion of a greater social spirit.

Protection of the highways while wet and soft.

So far there has been no definite head to the movement, and apparently the only thing desired is a leader in order to bring 500 to 1500 auto owners in the county into the organization.

# ARMY OF ONLY 175,000 MEN IS PLAN FAVORED

General Staff Plan is Rejected By Committee—Favor National Guard

Washington, February 13.—(By Associated Press)—General opposition to a standing army in excess of 175,000 men, as authorized in the national defense act three years ago, was voiced in the House yesterday during debate on the annual army appropriation bill with its provision for a military force of 526,000 officers and men during the period of demobilization.

Chairman Dent of the Military Committee, was questioned closely as to the future army. Several members asked if the force provided in the bill was to be the permanent army strength.

The Chairman explained that it was not and there was general applause from both sides of the House when Representative McKenzie of Illinois, Republican, said the Military Committee favored a small army.

Mr. McKenzie said the proposal of the army General Staff for a permanent peace-time military establishment of 500,000 had been rejected by the committee, and Representative Kahn of California, Republican, interrupted to say that not a single member of the committee favored the proposal.

Discussion in the House continued throughout the day, with leaders of the opposition predicting as to when a vote would be taken on measure, which carries a total of \$1,100,000,000 for the War Department during the fiscal year beginning next July 1.

# 250,000 DEATHS DUE TO "FLU"

Washington, February 13.—(By Associated Press)—That Spanish influenza caused more deaths in this country during last 4 months than America's losses by death in 19 months of war was revealed by figures made public here showing the extent of the scourge and its companion disease, pneumonia, in this country.

The figures, compiled by the Public Health Service, disclosed that in 46 cities of this country alone there were 125,562 deaths from September to January. These figures do not take into consideration any of the army camps or rural sections of the country, or any of the small towns or cities. It is estimated that a complete census of the ravages in United States would disclose between 250,000 and 300,000 deaths in the September-January period.

New York led the cities in which a census of death was taken with a total of 27,362. In point of percentage San Francisco suffered most, having 28.8 deaths per 1,000 population.

GROUP MEETING. The Millwood Group will meet at Mrs. Jess Wilson's on Bear Ave., Friday February 14th at 2:30. This notice takes the place of the one previously announced.

# OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is included in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease. Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.
